

# Dismantle Racism:

take the pledge

educate

communicate

activate

## Educate

We've been indoctrinated into a racist system. There is much to learn and unlearn.

**Choose three educational resources: read, watch, listen, take a workshop, consult with a professional.**

---

---

---

## Communicate

Communicating our thoughts is a powerful tool. Sharing deepens our own understanding, spreads knowledge and helps shift the collective consciousness.

**Have three in-person conversations or post three times on social media about something you've learned and why it impacted you. Invite others to check out a specific resource. Encourage action.**

---

---

---

## Activate

In order to see true change, we must shift things on a systemic level. That requires action.

**Choose three specific actions you will take within your workplace or community.**
